

*Fiscal Year*

*2019 - 2020*

# Primary Care Teams

- 1,410 patients seen in Villa Verde, Dominican Republic
- 966 patients seen in Jerusalem, Haiti
- 115 patients received dental care
- 11 volunteer trips, 139 volunteers
- Ten community leaders who coordinate logistics with CE staff, in Haiti and Villa Verde

# Surgical Teams

Total cases – 355:

- Ortho - 93
- ENT – 185
- Gyne/Pelvic Reconstruction - 16
- Pediatric Urology – 15
- Urology – 14
- General Surgery – 32

## Audiology

- 693 hearing screenings
  - 115 Tympanometric and Otoacoustic Emission Screenings
  - One hearing aid delivered

# Education & Leadership

CE partnered with the Feltrex Foundation to provide continuing medical education (CME) conferences for medical professionals in the Dominican Republic:

- Critical Care Management of Neuromuscular Disease Conference
  - 47 residents attended
- Toxicology Conference at la Plaza de la Salud Hospital
  - 63 residents attended

CE was invited to speak on global health needs before and during the COVID-19 crisis:

- La Receta Médica podcast Feltrex webinar – “Flattening the curve of covid-19 based on Rush medical center experience”
- International Congress by Dominican Society of Emergency Medicine in Punta Cana
- Emergency Simulation and workshop at Unibe and HGPS

# Community Development: Rise

RISE is an interdisciplinary service-learning experience for RUSH students. CE has been partnering with RISE to work on community service projects.

This year, RISE worked local cement workers, masons and community volunteers to replace the dirt floors of five family homes with cement.

Rosa, a single mother of four children. Her husband disappeared trying to immigrate.

Nolia, a widow, currently lives alone with a granddaughter.

Juan, a widower, has lived in his home without access to an adequate floor for four years. He volunteers with the medical teams in Villa Verde

Luis, elderly, hypertensive, lives alone.

Upa, one of the volunteers in Villa Verde, whose house had recently burned down.

# Community Development: COVID-19

## Villa Verde:

- 24 families received food provisions through a COVID-19 assistance package

## Jerusalem:

- CE provided PPE and cleaning supplies to Dr. Fiquita and Community Health Workers

## Peralta:

- Peralta community leaders provided ongoing health messaging and the clinic was the only testing site in the region.

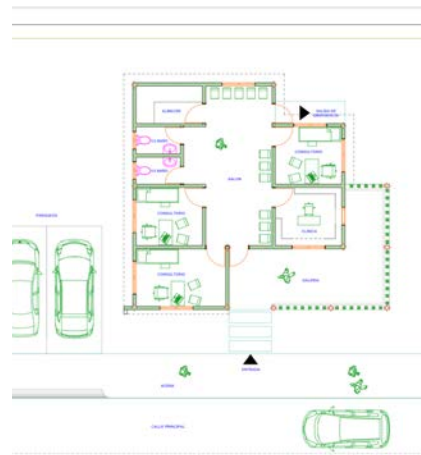

## Community Development: Villa Verde Clinic

Ground has been broken on the first clinic site in Villa Verde. The plans have been approved by the Ministry of Health.
